Varna
&
I-Varna

I-Varna / Varna

The design inspiration is captured from ballet, thus the combination the western art and oriental philosophy comes into being—Varna.

Varna combines hardness and softness of atypical upward gesture of ballet dancers, change the office environment with space aesthetics, and make art and beauty become a kind of silent strength.

EXECUTIVE DESK

Classic Design and Space & Time Concept

With soft lines, compact design and mild lacquer texture, Varnadesk surface is the classic representation of high-end watches and is endowed with the long-lasting time and space concept.

The arc design fully expresses beauty and meanwhile shows humanity. It has a mild texture yet full of tensile forces, thus helping senior executives combine both softness and hardness and have everything under control.

Configured flip wire box system on the table, convenient to make all kinds of electronic devices to use.

Storage Display and Dynamic Space

The sufficient display space allows years of honors and achievements to be fully revealed with an unprecedented gesture. The back cabinets of the Varna executive desk incorporate open cabinet, sliding door cabinet and opening door cabinet, creating dynamic display and storage space fun. The embedded side cabinet with micro-transparent glass materials delivery the new posture and propositions of the office with a more modern and open design.

Human-oriented Design and Consideration of Privacy

Varna deeply integrates art and practicability and works out more human-oriented desks. The side cabinets deftly include opening door cabinets, drawer cabinet and mainframe cabinet, which can satisfy varied private storage demands. It's just a turn-back to switch between private space and office space.

Fashion Spirit and Elegant Space

Varna pulls together high-end grey calmness and mocha elegance with metal-textured foothold. The metropolitan sense is fully manifested. The office space of Varna never throws away fashion spirit while sticking to the business style.

Young Attitude and New Posture

I-Varna extends Varna's design elements, adopts the mild light-color fire-proof facing and embraces more challenges with a younger posture. The side cabinets with built-in drawers fully satisfy the office demands of the new generation with powerful storage functions.

WORK STATION

Greater Desk Surface and Work with Composure

Ordinary staff desks are usually pale with only computer and keyboard. How to meet with the office demand of the new era?

I- Varna staff desk series extends the desk depth to 730mm. The surface is larger with a greater storage capacity. Computer work and writing work can be underway at the same time, making the office time more flexible and more relaxing.

The new L-shape combination of supervisor desk and staff desks is totally tailored to the office needs of small teams or project teams. The combined working group model enables the supervisor to effectively fit in the team and enhance efficiency;

The supervisor desk can be installed separately, thus being more suitable for overall view and independent thinking, and making office hours relatively private.

The linear-shape combination of the multiple-staff desks and single staff desk can effectively make full use of limited office space, thus accommodating a larger team with the least investment and making the office space more neat and orderly.

Cube and Plane Structure and Orderliness

The unique cube and plane structure better demonstrates the new-era efficient and succinct features of Varna. The built-in wiring function is powerful, rigorous and scientific, making the office space more orderly and enhancing office efficiency. The glass material makes the entire office furniture style more rational and elegant.

1. The wire box has two kinds: pull-out and flip which adapt to the habits of different groups

2. The special Varna buckles sufficiently support the cube and plane structure design.

MEETING TABLE

Wide Inside and Narrow Outside Design Shows Harmony

The paddle is the embodiment of unity and strength.

Varna line-shape meeting desk goes beyond the traditional meeting form. Few strokes outline the paddle shape of being wide on the inside and narrow on the outside, thus ensuring that every participant has the best view and makes concerted efforts to embrace more challenges.

Sufficient storage spaces are equipped to store meeting materials in a convenient way. The reasonable wiring design makes the meeting space more clean and tidy.

Different shapes of tables, satisfies different meeting and negotiation demands.
