H2

Yoga-based Spine-friendly Chair

Ergonomic, relaxing, spine-friendly.
H2 is designed with edgeless comfort.

A Masterpiece Of Ergonomics

Sunon spent 3 years researching 4000 sitting posture samples and developed this pioneering 4.0 dual-back chair, which conforms to different people's bodies to provide dynamic spinal support.

H2 offers common but differentiated support for cervical vertebra, thoracic vertebrae, and lumbar vertebra, shielding you from the hazards caused by sedentary working.

With bridge posture integrated

Just like spines lift up as yoga bricks pile up, the lumbar support allows edgeless gear transition to accommodate different working modes, achieving the flowing movement of spines under various gears.

Set your own comfort

The pioneering 3D dynamic dual-backs support the fatigue-prone 4th-5th section of lumbar vertebrae, reducing the chance of lumbar subsidence and hunchback, and effectively preventing spine-related problems.

Move with your body

30-degree synchronous swing from side to side makes H2 fit your body like a glove, activating the hidden functions of your waist and relieving your pressure effortlessly.

Comfortable throughout working hours

According to sitting biomechanics, the strong bracing provided by lumbar support helps your lumbar vertebrae to maintain a natural curvature and mitigate the stress felt by it.

Flexible tilting adjustment

139° 4-gear tilt allows you to personalize your postures. 55mm seat depth adapts to people of all shapes and statures.
