**AULENTI**

What matters is not limited to lines and surfaces. Office furniture should be like those landmark buildings, integrating technology innovation and fashion aesthetics, and standing out in a unique style. I hope Aulenti could be the best practice of this.

## Space of Beauty and Strength

What we do is to deliver technology in a more poetic way, that is, to realize organic interaction between technology and design, which requires technological innovation, quality details, humanized design and exquisite upholstery.

Aulenti is the product of technology expressed through design.

The elegant shape shows our constant pursuit of beauty. You can experience how Aulenti renders "strength and beauty" in a unique way from any angle or detail, including the dynamic legs shape, neat lines, smooth curve face and the application of side desk light.

We hope that Aulenti, the combination of strength and beauty, and firmness and softness, will become a model for modern office space.

Break the Boundary, Empower the Beauty

If we say "architecture revives a city", then office desks should almost determine the office environment. The powerful front contour, and those diamond-like splendid curves are all inspired by the dual edged infinite display of Galaxy S8. The concise and bright shape of crossed desk legs demonstrate a perfect combination of strength and beauty. Special formaldehyde-free water-based dual varnishing technology helps to create a greener and friendlier office atmosphere.
